Medical Issues

In the event a student must have class participation modified due to a medical issue, a written note or email from a parent/guardian or physician is required. These notes should include the student name, ID number, medical condition, and restrictions. Students will continue to dress in workout gear and train under the modifications provided by the parent, teacher and/or physician. By continuing participation using modifications, the student will be able to earn class credit. However, if no participation is allowed at all, no PE credit will be given until PE make ups are completed. Therefore, it is recommended that students on extended medical leave be placed in classes outside Physical Education. Students and parents are required to complete the Medical excuse form prior to the student attending class.

Attendance & Make-up Policy

Students with excused absences or medical excuses can make-up lost points by completing make-up work assigned by their teacher in Google Classroom.

Cell Phone/Earbud Use During Class Is Not Permitted

The use of cell phones/ear buds during class is not permitted. Upon entry to the gym students will need to store cell phones and earbuds in their backpack. Cell phones and earbuds cause a distraction for students in the learning environment. Students need to listen for cues during instruction and work interactively with others in class. Failure by students to store cell phones and ear buds in their backpack will result in loss of points. Following a third incident with cell phone/earbud use students will be referred to administration.
